PREFACE.

On the completion of this, the Sixth, issue of KELLY'S MEDICAL DIRECTORY, the Publishers again desire gratefully to acknowledge the kind assistance rendered to them by very many Members of the Profession, and to express their hope that this and future issues may continue to justify the opinions which have been expressed in favour of the work.

It is a matter of regret to the Publishers that in some cases exception should have been taken to the careful system of verification employed with reference to foreign and other qualifications unregistrable or unregistered in the "Medical Register." It has been the aim of the Publishers to be able to assert that every qualification, foreign or otherwise, recorded in these pages is absolutely correct, believing that such a Medical Directory would be valuable to and valued by the Profession. This endeavour cannot, however, be carried out without the generous co-operation of the members of the Medical Profession, and the Publishers earnestly trust that they may confidently reckon upon it. They desire most emphatically to disclaim any sort of intention to give any unnecessary trouble, much less annoyance of any kind, to those who may be possessed of the above-mentioned unregistered qualifications.

The Publishers again beg to invite the favour of a communication from any person who may detect errors, or who may dissent from the description or classification herein applied to any Institution, Office, or Individual.

The University is ordained to consist of a Chancellor, Vice-Chancellor, 36 Fellows & the Graduates in Arts, Laws, Science, Medicine, Music & Literature. Its functions are to examine persons who have attained to a knowledge in any branch of learning (except Theology) & to confer academical honours & degrees. It is not a teaching body, & therefore no "residence" is required of candidates for Degrees. The Undergraduates are persons who have passed the Matriculation or other Examinations. The Medical Degrees are Doctor of Medicine (M.D.), Bachelor of Medicine (M.B.), Master in Surgery (M.S.) & Bachelor of Surgery (B.S.). For a Degree in Medicine (the M.B.) every candidate shall be required:—(1) To have passed the Matriculation Examination of this University. The Examination is held twice yearly; the second Monday in January & the second Monday in June. (2) To have passed the Preliminary Scientific Examination of this University. This is held twice yearly: for Pass & Honours, on the third Monday in July; for Pass only, on the third Monday in January. (3) To have passed the Intermediate Examination in Medicine two years after passing the Preliminary Scientific. The Intermediate Examination is held twice yearly: for Pass & Honours, on the second Monday in July; for Pass only, on the third Monday in January. (4) To have passed the Final Examination in Medicine. The candidate may present himself two years after passing the Intermediate. The Final Examination in Medicine now also takes place twice yearly: for Pass & Honours, on the last Monday in October & for Pass only, on the first Monday in May. These & all other examinations are open to Women on precisely the same conditions as to Men.

Communications should be addressed to "THE REGISTRAR, University of London, Burlington Gardens, W."

THE NEW SCHOOL BUILDING.

In consequence of the rapid increase in the number of Dental Students the Governors of the Hospital have recently erected a new Building, which satisfies all the requirements of a Modern Dental School. **THE CONSERVATION ROOM**, on the second floor, is well lighted by numerous windows facing the North-East, and the roof is largely composed of glass. It contains 50 Morrison Operating Chairs, which are in daily use.

THE LABORATORY, on the first floor, is used for the instruction of Students in making Dentures & Mechanical Appliances, which are supplied only to cases within the Hospital. *No charge whatever is made for work done in the Laboratory.*

PRIZES are awarded annually. For First Year's Students a Prize of £10, for Second Year's Students Prizes of £15 and £10, the latter being given for Operative Dental Surgery.

An open ENTRANCE SCHOLARSHIP IN ARTS, of the value of £30, will be offered for competition in September, 1894.

Dental Students may join the **STUDENTS' CLUB**, which includes Reading Rooms, and a large Dining Hall, where refreshments may be obtained by Members at moderate charges.

A RESIDENTIAL COLLEGE has been built near to the Hospital, with rooms to accommodate about sixty students, and the rents are reasonable.

AMONGST THE ADVANTAGES PECULIAR TO THIS SCHOOL ARE THE FOLLOWING: 1.—All the special and general lectures can be attended and the practical work done at one Hospital. 2.—All the lectures and demonstrations are given between 9 a.m. and 5.30 p.m. 3.—Beds are provided in the Hospital for the reception of patients suffering from fractures and diseases of the jaws. 4.—The number of poor patients is practically unlimited, as no cards of admission are necessary. 5.—A Residential College and a Students' Club are attached to the Hospital. (3)

FEES.—The Fee for the two years' Hospital Practice required by the Examining Bodies for the L.D.S., including Lectures, is 30 guineas. Dental Students are also required to receive two years' instruction in a General Hospital, the Fee for which in Guy's Hospital Medical School is £60, with a reduction of 12 Guineas in the case of those Students who have obtained certificates of instruction in Chemistry, Practical Chemistry and Materia Medica. No arrangements are made for short periods of Instruction or Special Courses of Lectures. Further particulars with Prospectus may be obtained from the DEAN, Dr. L. E. SHAW, GUY'S HOSPITAL, S.E.

UNIVERSITY OF DURHAM.

COLLEGE OF MEDICINE, NEWCASTLE-UPON-TYNE.

LICENCES, AND DEGREES IN MEDICINE, SURGERY, AND SANITARY SCIENCE.—Three Licences and six Degrees are conferred by the University of Durham—viz., Licences in Medicine, in Surgery, and in Sanitary Science; the Degrees of Bachelor in Medicine, Doctor in Medicine, Bachelor in Surgery, Master in Surgery, Bachelor in Hygiene and Doctor in Hygiene.

Attendance at the University of Durham College of Medicine during one of the five years of professional study, or subsequently to qualification elsewhere, is required as part of the curriculum, for the Degrees, except in the case of Practitioners of more than fifteen years' standing, who have attained the age of forty years, who can obtain the Degree after examination only.

The first two Examinations for the Degree of M.B. may be passed prior to the commencement of attendance at Newcastle.

A candidate who has a recognized qualification, or who has passed the First Examination of the Conjoint Board in England of the Royal College of Physicians of London and the Royal College of Surgeons of England, will be exempt from the First Examination of the University of Durham, except in the subjects of Chemistry and Physics, in which he will be examined.

A Candidate who has passed the First and Second Examinations of the University will be exempt from the First and Second Examinations of the Conjoint Board in England, and will be entitled to present himself for the Final Examination of the Board on the completion of the necessary curriculum.

The Extra Arts Examination must be passed previously to the Candidate's entry for his Final Examination for the Degree.

All information, together with Examination Papers, &c., is given in the Calendar of the University of Durham College of Medicine, Newcastle-upon-Tyne, or may be obtained from the Secretary at the College.

Scholarships, &c.—A University of Durham Scholarship, value £100, for proficiency in Arts awarded annually to full Students in their first year only. The Dickinson Scholarship—value, £15 and a Gold Medal—for Medicine, Surgery, Midwifery, and Pathology. The Tulloch Scholarship—value, the interest of £400—for Anatomy, Physiology, and Chemistry. The Charlton Scholarship—value, the interest of £700—for Medicine. The Gibb Scholarship—value, the interest of £500—for Pathology. The Goyder Memorial Scholarship (at the Infirmary)—value, the interest of £325—for Clinical Medicine and Clinical Surgery. The Luke Armstrong Scholarship, interest on £680, and the Stephen Scott Scholarship, interest on £1,000. At the end of each Session a Prize of Books and Honours Certificates are awarded in each of the regular Classes. An Assistant Curator of the Museum, Assistant Demonstrators of Anatomy, Prosectors, and Assistant Physiologists are elected yearly. Pathological Assistants, Assistants to the Dental Surgeon, Assistants in the Eye Department, Clinical Clerks, and Dressers are appointed every three months.

The Royal Infirmary contains 280 beds. Clinical Lectures are delivered by the Physicians and Surgeons in rotation. Pathological Demonstrations are given as opportunity offers by the Pathologist. Practical Midwifery can be studied at the Newcastle Lying-in Hospital, where there is an Out-door Practice of about 500 cases annually.

PRESIDENT, THE DUKE OF FIFE, K.T.

VICE-PRESIDENTS, THE DUKE OF WESTMINSTER, K.G., THE EARL OF ROSEBERY, K.G. AND LEOPOLD DE ROTHSCHILD, ESQ.

The objects of the Association are:

(1) **To naturalize in this kingdom** the Pure Oral Instruction of the Deaf and Dumb by **Lip reading** and **Articulate Speech,** to the **rigid exclusion** of the Finger Alphabet and all Artificial Signs.

(2) **To train qualified Teachers on this System.**

(3) **To maintain a Normal School** for instructing Deaf and Dumb Children.

Society for Training Teachers of the Deaf, and Diffusion of the "German" System.

FOUNDED 1876. INCORPORATED 1886.

PRESIDENT—HIS GRACE THE ARCHBISHOP OF CANTERBURY.

The "German" or Pure Oral System teaches spoken and written language to the Deaf and "Dumb." It dispenses entirely with signs and the finger alphabet, and with the necessity in after-life of using pencil and tablets. Lip-reading taught to persons becoming deaf in adult life.

The Training College and School of the Society is situated at Castlebar Hill, Ealing, Middlesex.

Applications for the admission of Students and Pupils should be addressed to

AN ESTABLISHMENT FOR THE CARE AND TREATMENT OF THE INSANE OF THE HIGHER AND MIDDLE CLASSES.

RESIDENT PHYSICIAN AND PROPRIETOR—

F. K. DICKSON, F.R.C.P. & F.R.C.S.Edin.

ERECTED IN 1861 *BY HIS GRACE THE DUKE OF DEVONSHIRE.*

THIS Institution has been established for the reception of patients of BOTH SEXES of the Higher and Middle Classes, for whom it is admirably adapted by its position and appointments.

It is erected on an eminence surrounded with scenery of the most varied character, and the views from the House and Terrace extend over many miles of picturesque country.

The House is furnished throughout on the most liberal scale, and fitted up and arranged to resemble as much as possible an ordinary dwelling-house, with Bath-rooms and every necessary convenience.

The Proprietor lives in the House, and is assisted in his duties by a Resident House Surgeon and an experienced Lady Superintendent.

The House is heated throughout by means of hot-water apparatus, and is well and thoroughly ventilated.

Buxton is situated on the Mountain Limestone Formation, at an elevation of 1,000 feet above the level of the sea, and is accessible by Railway from Manchester and Liverpool by Stockport, or by the Great Northern and Midland Railways *viâ* Ambergate and Derby. It is also connected by Telegraph with all parts of the Kingdom.

Particulars of Terms and Forms of Admission can be obtained on application to the Resident Physician. [1]

QUERIES WHICH HAVE REFERENCE TO THE TRUE PRINCIPLES OF SCIENTIFIC DISINFECTION.

1.—Whether the best safeguard to the Contraction of Disease is a condition of Cleanliness ?

2.—Whether wherever there is dirt or foulness of any kind, a condition favourable to the propagation of low germ life that generates disease must exist ?

3.—Whether a System of Baking dirt into infected articles of Bedding or Clothing is a satisfactory and effectual mode of disinfection ?

4.—Whether a System of Baking or Steaming articles packed closely in Bales or Bags can recommend itself to any Sanitary Authority ?

5.—Whether mere cheapness is sound economy where Safety to the Public Health is involved ?

6.—Whether it is not more economical in the long run to employ ARMFIELD AND SONS' perfect system of Disinfection and Purification, which not only destroys all disease germs but also cleanses the goods of all dirt, and returns them to the owner in a condition of absolute purity ready for immediate use, affording the maximum of comfort and best safeguard against further illness ?

Every article is submitted to 40 degrees (288° Fahrenheit) High Pressure Steam, afterwards cleaned and in case of Bedding re-made equal to new, allowing for actual wear.

TASTELESS PILLS

COX'S PATENT

(Dated and Sealed April 13th, 1854).

And as a Further Protection the Registrar of Trade Marks (after giving the usual public notice prescribed by Parliament to allow of opposition) has granted us the appended **Trade Mark,** thus officially recognising us as the **original makers of Tasteless Pills,** and no Pills will be sent out without this mark on all bottles or packages.

1894 Catalogues sent Post Free on application.

These contain 800 coated and uncoated forms of different strengths, requiring not less than 3,000 bottles and jars.

Many Pills are now being made in imitation of ours, principally by not very scrupulous persons we formerly supplied. Inferior drugs and chemicals are used for cheapness, and the pills pass through the system unaltered.

Medical Men and Chemists are requested, when ordering through Wholesale Houses, to specify

COX'S TASTELESS PILLS.

Or direct from us, we paying postage and carriage.

Our prices, with the usual discount for prompt payment, will be found to compar favourably with any makers where the best drugs and chemicals are used.

JACKET.

(*In cases of Slight deformity*):—
Circumference at axilla.
,, waist.
,, hips.
Length from axilla to great trochanter.

In severe angular cases circumference over apex of curve, position of same, and contour should be given; in lateral cases a description of the case.

In all cases it should be stated if for male or female.

CERVICAL JACKETS.

Same measurements and circumference at neck, and length from centre of neck to axilla.

Any part of the Jacket can in the process of manufacture be left soft.

LEG SPLINT.

Circumference at top of thigh.	Circumference below knee.
,, above knee.	,, at calf.
,, at knee.	,, at ankle.

Length of splint as required.
State if for right or left leg.

When the foot part is required, also circumference at heel and instep, and length from centre of knee to ground.

If the limb is contracted the contour should be given.

These Splints can be fitted perfectly to the Patient if softened either by hot water or in a Heater made for the purpose. When mounted with webbing straps, hot water will do; if with leather a Heater would be required. It softens very quickly and becomes quite hard again in two or three minutes.

Made with soft front or with hinge at back, and with foot part if required.

THE annexed engravings illustrate our latest and greatest improvements in Artificial Legs for Amputation *Above and Below* the Knee.

These Limbs can be specially recommended for their great strength and durability. The joints are so constructed, that they act with mathematical precision, and are calculated to wear twice as long as any other kind without repairs.

The new Patent Adjustable Tendon will be found a great boon to wearers who have been inconvenienced by the stretching of the Tendons. By the use of this invention anyone can, in a few moments, regulate the length of the Tendon so that a high-heeled boot can be worn as easily and comfortably as a slipper.
